THAMARA GERIG

• FRONT - END DEVELOPER •

ABOUT ME

After studying two years of Fine Arts, one year abroad, and living in three cities, I realized that building user-friendly and easy-to-use websites were my true passion.

Also, I seek to learn from new technologies and actively participate in the community. Always providing dynamism, perseverance, and optimism!

EDUCATION

2019 • The World Wide Web Consortium (W3C)
Front-End Web Development | 200hrs

2019 • Duke University
Programming Foundations with JavaScript, HTML and CSS | 60hrs

EXPERIENCE

2020 - Now

Z1

Project development in collaboration with Fundación Telefónica through the PICE (Young Employment Plan) "Front-End Web Development" program.

STACK

HTML   Sass
CSS   Git
JavaScript   TypeScript
React   GraphQL
Vue

LANGUAGES

Spanish - Native

English- C1

ACHIEVEMENTS

• I've participated in multiple Hackthones, having won one and the other resulting in a StartUp.

• I've also written some articles here, summarizing programming concepts.

• Co-organized OSWeekends, a tech community in Madrid focused on creating and talking about open source.

• I also like doing fun CodePens on my free time and sharing what I learn on Twitter!
